

## **Dr. Eric Edmond**

Dr Edmonds is faculty at Rady Children's Hospital San Diego serving as the Director of Orthopedic Research, and sharing duties of Director for the 360 Sports medicine program. He is also an Associate Professor of Clinical Orthopedics with the University of California San Diego where he is actively involved with the education of pediatric orthopaedic fellows, residents from UCSD, the Navy and the Air Force, and UCSD medical students. He is one of only two fellowship-trained children's orthopaedic surgeons with subspecialty certification in sports medicine from the American Board of Orthopaedic Surgery in San Diego, Imperial, Riverside and Orange Counties.

His clinical interests include youth sports medicine and musculoskeletal trauma. Current research involves adolescent shoulder and knee injuries as well as ankle injuries and fracture treatment. He actively participates in many multi-center research teams, including the ROCK (Research of Osteochondritis Dissecans of the Knee). He has received multiple research awards including the Provost Undergraduate Award for Research and Excellence from the Johns Hopkins University and the distinguished St Giles Young Investigator Award from the Pediatric Orthopaedic Society of North America.

In 2015, he represented POSNA as part of the first POSNA-Asia Pacific Pediatric Orthopedic Society Traveling Fellowship group visiting New Zealand, Australia and Hong Kong. He has served as an At-large Director for both Pediatric Orthopedic Society of North America (POSNA) and PRISM (Pediatric Research in Sports Medicine society). Moreover, he actively serves on the POSNA Membership committee, Treasurer committee, Long Range Planning committee and the Bylaws committee. In the past he has served as Chair of the POSNA Trauma Prevention Committee, and as served on the Education and Educational Courses committees for POSNA.
