Introducing a GAME-CHANGING Technology for the Biodiesel Industry to Offer:

- a. Cost-effective, and
- b. Environmentally-benign IMMOBILIZED ENZYMES for

Batch/Continuous Production of Biodiesel Using Multiple Feedstocks.

High Quality Oil

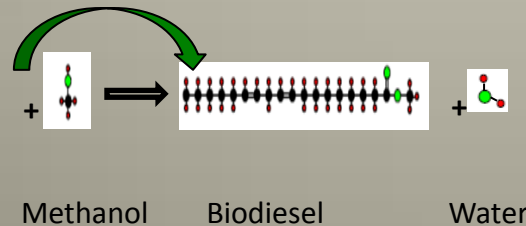

1st Generation Feedstocks/Catalysts/Biodiesel

Enzyme-based catalysts

Low quality oil

2nd Generation Feedstocks/Catalysts/Biodiesel

International Projects & Strategy

Our Projects

M Energy (S. Korea)

Reactor Volume: 19 m³
Production rate: 4 Ton/h
Production Capacity: 96 tons/day
Quality: EN Specification

- Enzymes Sales to International Biodiesel Producers Worldwide
- JV's with Biodiesel Producers
